

# 4 x 1 STEREO AUDIO SOURCE SELECTION

Remotely Select From Four Stereo Audio Sources and Control Level in Lounge or Restaurant

**SYSTEMS SOLUTIONS**

AN-2210

## Description:

The RU-ASX4DR Remote Controlled Audio Selector allows patrons of this establishment to enjoy a variety music sources or the opportunity to watch and listen to television broadcasts. The D-RC4M Four Channel Remote Control and D-RLC10M Remote Level Control allow the staff to select the desired program source and to adjust the audio level. Sources may be muted by simply de-selecting the active input at the D-RC4M or by pressing the MUTE button on the D-RLC10M. The D-CIJ3D Consumer Input Jack panel is used to balance the stereo signal of an MP3 player and to provide galvanic isolation.
